# 14,00-24 VOLTYRE-HEAVY DT-126 TL

Large-sized diagonal tires are designed for heavy-duty work. The tires are characterized by a strong carcass that can withstand short-term overloads, a massive tread that has high wear resistance, and a tread pattern of increased traction. The tire provides a long service life and minimal damage.

Tire parameters:

Application
Brand
Overall diameter, mm
Profile width
Rim diameter, inh
Static RADIUS, mm
Load index
Maximum load, kgf
Pressure, kPa
Ply rating
