680/85R32 TITAN AG60H TL

High lugs give the best traction and extend the service life. The tread provides a comfortable ride due to the large contact patch. The tread compaction was achieved while manufacturing. Suitable for operation on combines.

Tire parameters:

Application
Brand
Overall diameter, mm
Profile width
Rim diameter, inh
Static RADIUS, mm
Load index
Maximum load, kgf
Pressure, kPa
Maximum speed, km/h
Model
Tread depth, mm
Standard size, mm
Unconditional guarantee
